

8.5.1 Patch Notes for eCOMS and eIACUC Users

- System-Wide Enhancements:
 - Disabled USDA annual renewal requirements for IACUC protocols.
 - Fixed “Tabled” or “Changes Required” meeting motion-state transitions for COMS protocols.
 - Fixed BSO edit privileges during the “BSO Post-Meeting Review” state.
 - Implemented hide/show handshake between COMS protocols and BSO Risk Assessments.
 - Fixed bug that deleted Approval Letters upon certain BSO Risk Assessment entries for COMS protocols.
 - Added access to internal Reporting page from COMS Inbox page for administrators.
- Workspace Enhancements:
 - Fixed Print Preview and Create Printable Packet functionality.
- Smartform Enhancements for eIACUC:
 - Fixed bug that overridden analgesic total duration of administration.
 - Fixed bug that deleted investigator-related monitoring plans associated with copied protocols. Copy Protocol activity re-enabled after fix.
 - “Chemical Agents” page:
 - Fixed issue where “Other” text field remains hidden upon reentry.
 - “Biological Agents” page:
 - Included table columns for the Procedure Name and Type associated with the agent(s) listed.
 - “DEA Regulated Drugs” page:
 - Fixed issue with Procedure Type not populating.
 - Included DEA-regulated drugs described on the “Animal Housing & Transportation” and “Animal Disposition” pages.
- Smartform Enhancements for eCOMS:
 - “Recombinant or Synthetic Nucleic Acids” page:
 - Fixed issue for Question 6 (animal-related work) where “Other” text field was not appearing after selection.
